

Product Info AgXX-bioDECONT®

Product Features:

AgXX-bioDECONT is a solution which was specially developed for cleaning and regeneration of AgXX surfaces. AgXX-bioDECONT efficiently removes limes deposits, fats, biofilms and microorganisms from all surfaces and especially also from AgXX networks. All components of AgXX-bioDECONT® are biodegradable..

Composition:

- Aqueous solution
- Technical ethanol (up to 5%)
- Organic, natural acids (up to 2%)
- Ionic and nonionic tensides (up to 0.5%)
- Natural inorganic agents (less than 0,1%)

Applications:

Cleaning and microbial decontamination of surfaces.

Application Form:

Immersion and spraying or applying to the surface.

Temperatures for use:

4°C - 100°C

Durability:

2 months after opening the container

Warning:

All components of AgXX-bioDECONT are biodegradable. The solution has a slightly irritating effect, so contact with skin and eyes should be avoided. If there has been a contact, rinse the solution with water abundantly. Remains of AgXX-bioDECONT can be easily disposed of in the sink or waste water.

Slightly irritating
Avoid contact with
skin and eyes
